

PACTESUR2

PROTECT ALLIED CITIES AGAINST TERRORISM IN SECURING URBAN AREAS 2

2023 - 2025

HOW CAN CITIES AND LOCAL SECURITY ACTORS BETTER PROTECT THEIR VULNERABLE PUBLIC SPACES?

The advancement of the project will be regularly presented during all the events organized throughout the project in Nice, Madrid, Turin, Liège, Paris and Brussels.

For more precisions see our website www.pactesur.eu.

If you need specific information about the project or propose your contribution, please write to pactesur@ville-nice.fr.

Nice - France

Madrid - Spain

Turin - Italy

Liège - Belgium

VILLE DE NICE

The 4 pillars OF THE PROJECT

SPECIALIZED TRAINING

Improve the protection of public spaces by strengthening the development and implementation of good practices at local level through the organization of European police academies dedicated to local security practitioners and exchanges of police forces during international events.

AWARENESS

Raise awareness among citizens about their role in prevention as security actors. The Efus will be in charge of the main aspects of communication and dissemination of the project to European institutions and other networks. Urban security being a global challenge, this communication campaign will also aim at involving cities at the international level, in South and Central America, Senegal, South Africa and Ivory Coast which have developed strong collaborative links with the Efus.

IMPROVING PUBLIC-PRIVATE COOPERATION

Organize workshops with all relevant stakeholders, working groups with European experts and working meetings (online and in person). These events will be organized by the partners in order to prepare a set of recommendations dedicated to cities and to the European Commission to strengthen public-private cooperation in the protection of public places.

INNOVATIVE TOOLBOX

Identify the most suitable local investments to secure open public spaces by sharing field experiences. This includes the design of innovative training tools for police forces and the testing of new strategies to improve the security of the Liège Wandre oil port.

Who are the PARTNERS?

PACTESUR2 consortium involves 4 flagship cities strongly invested in proactive security policies: **Nice, Madrid, Turin and Liège.**

And 2 partners enabling the dissemination of the project towards a wider network of European cities: **the Efus and ANCI- Piemonte.**

PACTESUR2 also recruited in October 2023 a working group of European cities representing the diversity of Europe and associated to all the project activities.

Vilnius (Lithuania)
Xabia (Spain)
Riga (Latvia)
Gdansk (Poland)
Tallinn (Estonia)
Erzsébetvaros- Budapest (Hungary)
